

Rawda Mohamed Mahmoud Mohamed

Frontend Developer

[Alex, Egypt - rawdamohamedsengab@gmail.com - 01112463512 - Portfolio Web - LinkedIn - GitHub]

Summary

Computer Science student specializing in Frontend Development, architecting high-performance, accessible interfaces. Proven ability to deliver scalable applications using React and Next.js, with experience in over 5 production web projects. Reduced data errors by 30% and accelerated development cycles by 20% through clean code and reusable architecture.

Skills

Core Technologies: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+).

State & Data: Redux, Zustand, Context API, React Hook Form, Joi, Zod.

Modern UI & Styling: Tailwind CSS, shadcn/ui, Responsive Design, Figma-to-Code.

Backend & Systems: Node.js (Learning), PHP, RESTful APIs, MySQL, MongoDB, Supabase, JWT.

Computer Science Fundamentals: Data Structures, Algorithms, Software Engineering, Numerical Analysis.

Soft Skills: Teamwork, Problem-Solving, Time Management, Adaptability.

Experience

Frontend Developer | Tayel Ai labs (April 2026 – now)

- Platform Development: Building a scalable educational platform that provides specialized courses through a modern, responsive web interface.
- AI Integration: Implementing an interactive, AI-driven customization engine for apparel, allowing users to generate unique, high-quality designs for hoodies and garments in real-time.
- User Experience (UI/UX): Architecting a "pixel-perfect" interface that translates complex design requirements into seamless user interactions, ensuring a smooth flow from design generation to order placement.
- Technical Stack Optimization: Utilizing modern frontend frameworks (Next.js/React) to optimize performance and ensure the application remains highly responsive during intensive AI-design processing.

Frontend Developer Intern | Web Masters (Oct 2025 – Mar 2026)

- Developed and optimized high-performance applications using React.js and Next.js, achieving 90+ Lighthouse scores for scalability and speed across various platforms.
- Translated complex Figma designs into pixel-perfect, accessible interfaces, improving layout consistency and increasing engagement by an estimated 10%.
- Resolved over 20 interface bugs, enhancing cross-device responsiveness and reducing layout-related issues by 15%.
- Engineered an E-Commerce solution using Tailwind CSS and Supabase, managing seamless cart operations and real-time order tracking for optimized shopping experiences.
- Integrated RESTful APIs and utilized GitHub for advanced version control and branching strategies within an Agile team.

Frontend Developer Intern | Code Sentinel (Jul 2025 – Aug 2025)

- Architected mobile-first applications, enhancing cross-browser compatibility and improving performance for diverse mobile audiences.
- Developed a comprehensive library of reusable UI components, accelerating new feature development cycles by 20%.

- Streamlined source code workflows using GitHub, ensuring high-quality code reviews and version integrity.

Full Stack Intern (PHP) | ITI (Aug 2025)

- Implemented robust CRUD operations and RESTful APIs using PHP and MySQL, managing complex server-side logic and data persistence.
- Optimized relational database queries, enhancing response efficiency for data-intensive modules.
- Engineered server-side validation and secure form processing to ensure 100% data integrity and protection against common vulnerabilities.

Web Design & Freelancing Intern | NTI (May 2025 – Jul 2025)

- Designed and engineered responsive landing pages using HTML5, CSS3, and JavaScript, focusing on modern usability and fluid layout.
- Delivered 5+ successful client projects through professional scoping, requirement analysis, and project planning.

Projects

Next.js E-Commerce Solution | Sportswear Platform Repo: [rawdamohamed2/sportswear-ecommerce](#)

- Engineered a high-performance platform featuring seamless cart operations and real-time order tracking.
- Architected global state management using Zustand and integrated Supabase for secure user authentication and database operations.
- Implemented strict Joi validation schemas, enhancing data integrity and reducing potential input errors by 30%.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, shadcn/ui, Zustand, Supabase, Lucide React, Joi.

Scalable E-Learning Management System

Repo: [hussain-ELshepeny/E-learning](#)

- Developed a comprehensive E-Learning platform featuring interactive lessons, automated exams, and a robust Admin Management System.
- Integrated advanced features such as video streaming, lesson filtering, and interactive learning games using React.js to boost engagement.
- Managed complex state using Redux, ensuring type safety and schema validation with Zod.
- Optimized user experience with a personalized dashboard and secure REST API integration for access control.
- **Technologies:** React.js, Redux, Zod, Tailwind CSS, shadcn/ui, REST APIs, Lucide React.

React-Based Movie & TV Discovery Platform

Repo: [rawdamohamed2/movieApp](#)

- Built a media browsing application leveraging the TMDb API for real-time data.
- Implemented JWT-based authentication via secure backend integration and optimized navigation with custom search filters and dynamic sorting.
- Streamlined data fetching and API interactions using Axios and handled client-side routing with React Router.
- **Technologies:** React, Vite, Tailwind CSS, React Router, Context API, Axios, Joi, jwt-decode, TMDb API.

Education

Alexandria University | B.Sc. in Computer Science (2022 – 2026)

- **CGPA:** 3.7 / 4.0
- **Relevant Coursework:** Advanced Data Structures & Algorithms, Distributed System, Database Systems (MySQL/Oracle), Software Engineering, Numerical Analysis, and Web Development.

Certifications

- **Full Stack PHP Internship** - ITI (August 2025) | **[View Certificate](#)**
- **Frontend Developer Internship** – Web Masters (May 2025 – Jul 2025) | **[View Certificate](#)**
- **Frontend Developer Internship** – Code Sentinel (Jul 2025 – Aug 2025) | **[View Certificate](#)**
- **Web Design & Freelancing Training** – NTI (May 2025 – Jul 2025) | **[View Certificate](#)**
